

RES is finalising the design for its Cairnmore Hill Wind Farm, located approximately 4.5km west of Scrabster.

Two information events are being held to update the community on the project and explain the changes to the design. RES staff will be on hand to answer any queries, and questionnaires will be available to gather feedback.

If you're a local business and interested in getting involved with the construction and operation of onshore wind projects, please come along and meet our team.

Comments on the proposal must be provided in writing by either filling out a questionnaire form at one of the exhibitions or by writing to Scott Vallance, Project Manager, via email at scott.vallance@res-group.com or by post at RES, Third Floor STV, Pacific Quay, Glasgow, G51 1PQ.

The closing date for comments is Friday 3rd May 2019.

In accordance with Town and Country Planning (Development Management Procedure) (Scotland) Regulations 2013 (6). Persons submitting comments in response to the Pre-Application Consultation are advised that comments submitted to RES at this time are not representations to the planning authority (The Highland Council); there will be an opportunity to submit representations to the planning authority should a planning application be made.

Wednesday 3rd April
